Management Discussion and Analysis**(i) Industry Structure and Development & Opportunities and Threats**

Non Banking Finance Companies (NBFC) sector in India is represented by a mix of a few large companies with nationwide presence and a few small and medium sized companies with region focus, primarily engaged in hire purchase financing, investments, corporate loans, IPO funding, venture capital and other non-fund based activities. The Reserve Bank of India (RBI) regulates and supervises these NBFCs.

The Company has surrendered its Certificate of registration and RBI also through its Order dated April 16, 2016 has cancelled Company's Certificate Registration No- A- 14.01690.

(ii) Opportunities and threats

The NBFCs are facing stiff competition from Banks and Financial Institutions, due to the ability of Banks & FII's to raise a low cost fund which enables them to provide funds at more favorable rates. More stringent capital adequacy norms have been stipulated by RBI for NBFCs which results in inability to give cheaper finance.

(iii) Segment-wise or Product-wise Performance

The Company has been primarily engaged in the business of hire purchase, leasing, bill discounting and non-fund based activities. Since the risk and returns in these businesses are similar, therefore, these are grouped as a single segment. This is in accordance with the guiding principle provided in the Accounting Standard on Segment Reporting (AS- 17) issued by The Institute of Chartered Accountants of India.

(iv) Future Outlook

The Company is presently engaged in recovery of delinquent loan assets and settlement of old legal cases filed by/ against the Company. Your directors are exploring the possibilities of venturing into new business areas.

(v) Risks and Concerns

High interest regime in the economy may act as a dampener for the financing business. There is also stiff competition due to entry of large players in the market.

(vi) Internal Control Systems and their adequacy

The Internal Control Systems are in place to serve the existing operations of the Company.

(vii) Financial Performance

The loss for the year after write offs/ provisions etc. and tax amounts to Rs. 5.82 Lacs.

(viii) Human Resource and Industrial Relations

The Company is having three employees as on the date of this report. Your Directors relation at all levels with employees were cordial.

Actual results may differ substantially or materially from those expressed or implied. I. Company's Philosophy on Corporate Governance

Corporate Governance may be defined as a set of systems, processes and principles, which ensure that a Company is governed in the best interest of all stakeholders. It is the system that directs and controls respective companies. It is about promoting corporate fairness, transparency and accountability. In other words, 'Good Corporate Governance' is simply 'good business'.

In India, the question of Corporate Governance has emerged mainly in the wake of economic liberalization and de-regularization of industry and business. The objective of any Corporate Governance system is to simultaneously improve corporate performance and accountability. These, in turn, help to attract financial and human resources on the best possible terms and prevent corporate failure.

Corporate Governance consists of procedures and processes, according to which an organisation is directed and controlled. Its structure specifies the distribution of rights and responsibilities among different pan-organisational participants, such as the Board, managers, shareholders, and other stakeholders. The system helps to lay down the rules and procedures for decision making.

The objective of Good Corporate Governance is to ensure the Board's commitment towards transparent management to maximise long-term value for the Company's shareholders and other partners. It integrates all the participants involved in a process, which is economic and at the same time, social.

A well-defined and enforced Corporate Governance benefits everyone concerned by ensuring that the enterprise adheres to accepted ethical standards and best practices, as well as to applicable laws.

Corporate Governance goes beyond the practices enshrined in the laws and is imbibed in the basic business ethics and values that needs to be adhered to in letter and spirit. However a transparent, ethical and responsible Corporate Governance framework essentially emanates from the intrinsic will and passion for good governance ingrained in the organisation.

Good Corporate Governance practices are also essential for a sustainable business model for generating long term value for all its stakeholders.

At Escorts Finance Limited, Corporate Governance practices aim to adhere to the highest governance standards through continuous evaluation and benchmarking.

2.07 Property plant and equipment

The Company has elected to continue with the carrying value of all of its plant and equipment (including freehold land) as at the transition date, viz., 1 April, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to the Statement of Profit and Loss during the financial period in which they are incurred.

Depreciation is computed on Straight Line Method ('SLM') based on estimated useful lives as determined by internal assessment of the assets in terms of Schedule of II to the Companies Act, 2013.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

No further charge is provided in respect of assets that are fully written down but are still in use.

2.08 Intangible assets

Development of property and software costs are included in the balance sheet as intangible assets, when they are clearly linked to long term economic benefits for the Company. These are measured initially at purchase cost and then amortised on a straight-line basis over their estimated useful lives. All other costs on development property and software are expensed in the statement of profit and loss as incurred.

2.09 Inventories

Repossessed assets are valued at the end at lower of book value or net realizable value as certified by the management of the Company.

2.10 Provisions

Provisions are recognised in the balance sheet when the Company has a present obligation (legal or constructive) as a result of a past event, which is expected to result in an outflow of resources embodying economic benefits which can be reliably estimated. Each provision is based on the best estimate of the expenditure required to settle the present obligation at the balance sheet date.

Constructive obligation is an obligation that derives from an entity's actions where:

- (a) by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities; and
- (b) As a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities. "

2.11 Financial Instruments

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

A. Financial Assets

a. Financial assets carried at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b. Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

c. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

d. Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition. For financial instruments whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised.

e. Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards

of ownership and continues to control the transferred asset, the Company recognises its retained interest in the assets and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing of the proceeds received.

B. Financial liabilities and equity instruments**Classification as debt or equity**

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial Liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

Interest-bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Company's accounting policy for borrowing costs.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in Paragraph 7(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of **ESCORTS FINANCE LIMITED** (hereinafter referred to as "the Holding Company"), and its associate company, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Boards of Directors of the Holding Company and its associate company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls.

Because of the matter described in the Disclaimer of Opinion paragraph below, we were unable to obtain sufficient appropriate audit evidences to provide a basis for an audit opinion on internal financial controls system over financial reporting of the Holding company.

In relation to an associate company, although the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis of opinion on associate company. The Disclaimer of Opinion for consolidated Report on the Internal Financial Controls over Financial Reporting has been arrived based on the Disclaimer of Opinion in Holding Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Disclaimer of Opinion

According to information and explanations given to us, the Company has not established its internal financial controls over financial reporting on criteria based on or considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. Because of this reason, we are unable to obtain sufficient appropriate evidence to provide a basis for our opinion whether the Company had adequate internal financial controls over financial reporting, and whether such internal financial controls were operating effectively as at March 31, 2017.

We have considered the disclaimer reported above in determining the nature, timing, and extent of audit tests applied in our audit of the consolidated financial statements of the company and the disclaimer does not affect our opinion on the consolidated financial statements of the Company.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to one associate company, which is incorporated in India, is based on the corresponding report of the auditors of such company incorporated in India.

2 Significant Accounting Policies :

2.01 Basis for Preparation

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards ("Ind AS"), notified under the Companies (Indian Accounting Standards) Rules, 2015, with effect from 1 April, 2016.

The transition from the previous GAAP (i.e., I GAAP) to Ind AS has been accounted for, in accordance with Ind AS 101 "First Time Adoption of Indian Accounting Standards", with 1 April, 2015, as the transition date.

The consolidated financial statements have been prepared under the historical cost convention, with the exception of certain assets and liabilities that are required to be carried at fair values by Ind-AS.

These consolidated financial statements have been prepared in accordance with Ind AS as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013.

2.02 Use of estimates and critical accounting judgments

In preparation of the consolidated financial statements, the Company makes judgments, estimates and assumptions about the carrying amounts of assets and liabilities. The estimates and the associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

Significant judgments and estimates relating to the carrying amounts of assets and liabilities include useful lives of tangible and intangible assets, impairment of tangible assets and intangible assets, provision for employee benefits and other provisions, recoverability of deferred tax assets and commitments and contingencies.

2.03 Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company, i.e. its subsidiaries. They also include the Group's share of profits, net assets and retained post acquisition reserves of associates that are consolidated using the equity method of consolidation.

Control is achieved when the Company is exposed to, or has rights to the variable returns of the equity and the ability to affect those returns through its power over the entity.

The result of subsidiaries and associates acquired or disposed of during the year are included in the consolidated statement of profit and loss from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Intra-group transactions, balances, incomes and expenses are eliminated on consolidation.

Non-controlling interest in the assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Company's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interests' proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on acquisition-by-acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition, plus the non-controlling interests' share of subsequent change in equity. Total comprehensive income is attributed to non-controlling interests even if it results in the non-controlling interest having a deficit balance.

2.04 Investment in Associates

Associates are those enterprises in which the group has significant influence, but does not have control.

Investments in associates are accounted for under the equity method and are initially recognized at cost, from the date that significant influence commences until the date that significant influence ceases. Subsequent changes in the carrying value reflect the post acquisition changes in the groups' share of net assets of the associate.

2.05 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognised:

- a) Income is recognized on accrual basis except income related to non-performing assets, which is accounted on cash basis in accordance with prudential norms of Reserve Bank of India.
- b) The Company has adopted Implicit Rate of Return (IRR) method of accounting in respect of finance charges income for hire purchase/loan transactions. As per this method, the IRR involved in each hire purchase/loan transaction is recognized and finance charges calculated by applying the same on outstanding principal financed thereby establishing equitable distribution of income over the period of the agreement.
- c) Interest on overdue installments is accounted for on receipt basis.

2.06 Foreign currencies

The functional currency of the Company is Indian rupee.

Income and expenses in foreign currencies are recorded at exchange rates prevailing on the date of the transaction. Foreign currency denominated monetary assets and liabilities are translated at the exchange rate prevailing on the balance sheet date and exchange gains and losses arising on settlement and restatement are recognised in the consolidated statement of profit and loss. "

2.07 Employee benefits

a) Defined benefit plans

Retirement benefits in the form of Gratuity is considered as defined obligations and are provided for on the basis of actual, as at the date of the Balance Sheet.

b) Defined contribution plans

Employee benefits in the form of Provident Fund are considered as defined contributions Plan. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

c) Compensated absences

Compensated absences are provided for on the basis of actuals, as at the date of the Balance Sheet.

2.08 Taxation

Tax expense for the year comprises current and deferred tax.

a) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit and loss because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates and tax laws enacted in the country.

b) Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. In contrast, deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised.

c) Current and deferred tax for the year

Current and deferred tax are recognised as an expense or income in the consolidated statement of profit and loss, except when they relate to items credited or debited either in other comprehensive income or directly in equity, in which case the tax is also recognised in other comprehensive income or directly in equity.

2.09 Property plant and equipment

The Company has elected to continue with the carrying value of all of its plant and equipment (including freehold land) as at the transition date, viz., 1 April, 2015 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to the consolidated Statement of Profit and Loss during the financial period in which they are incurred.

Depreciation is computed on Straight Line Method ('SLM') based on estimated useful lives as determined by internal assessment of the assets in terms of Schedule of II to the Companies Act, 2013.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

No further charge is provided in respect of assets that are fully written down but are still in use.

2.10 Intangible assets

Development of property and software costs are included in the consolidated balance sheet as intangible assets, when they are clearly linked to long term economic benefits for the Company. These are measured initially at purchase cost and then amortised on a straight-line basis over their estimated useful lives. All other costs on development property and software are expensed in the consolidated statement of profit and loss as incurred.

2.11 Inventories

Repossessed assets are valued at the end at lower of book value or net realizable value as certified by the management of the Company.

2.12 Provisions

Provisions are recognised in the consolidated balance sheet when the Company has a present obligation (legal or constructive) as a result of a past event, which is expected to result in an outflow of resources embodying economic benefits which can be reliably estimated. Each provision is based on the best estimate of the expenditure required to settle the present obligation at the balance sheet date.

Constructive obligation is an obligation that derives from an entity's actions where:

- (a) by an established pattern of past practice, published policies or a sufficiently specific current statement, the entity has indicated to other parties that it will accept certain responsibilities; and
- (b) As a result, the entity has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

2.13 Financial Instruments

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts future cash receipts or payments through the expected life of the financial instrument, or where appropriate, a shorter period.

**A. Financial Assets****a. Financial assets carried at amortised cost**

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b. Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows that give rise on specified dates to solely payments of principal and interest on the principal amount outstanding and by selling financial assets.

c. Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in profit or loss.

d. Impairment of financial assets

Loss allowance for expected credit losses is recognised for financial assets measured at amortised cost and fair value through other comprehensive income. Loss allowance equal to the lifetime expected credit losses is recognised if the credit risk on the financial instruments has significantly increased since initial recognition. For financial instruments whose credit risk has not significantly increased since initial recognition, loss allowance equal to twelve months expected credit losses is recognised.

e. Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the assets and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing of the proceeds received.

B. Financial liabilities and equity instruments**Classification as debt or equity**

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial Liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest rate method.

Interest-bearing bank loans, overdrafts and issued debt are initially measured at fair value and are subsequently measured at amortised cost using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Company's accounting policy for borrowing costs.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

Dear Shareholder,

Re: Green Initiative in Corporate Governance: Go Paperless

The Ministry of Corporate Affairs ("Ministry") by issuing their circular 17/2011 dated April 21, 2011 & 18/2011 dated April 29, 2011 took a "Green Initiative in Corporate Governance" by allowing paperless compliances by companies using electronic mode.

The companies are now allowed to send Notices/ Documents including Notice calling Annual General Meeting, Audited Financial Statements, Directors' Report, Auditors' Report etc., to their shareholders using electronic mode to the registered email addresses of the shareholders.

We at **Escorts Finance Limited** also welcome this green initiative as it will reduce paper consumption to a great extent and allow public at large to contribute towards a greener environment.

This is a great opportunity for all the shareholders of **Escorts Finance Limited** to support this move fully. Besides conserving environment this would enable you to receive the communication promptly, avoid any loss of document in transit and also saving cost of paper and postage.

All you have to do is to register your email Id by returning the **appended letter** stating your email Id or send us an email stating **your Folio No. or DP Id & Client Id** to receive communication as stated above through electronic mode, henceforth.

Please quote your Folio No. or DP Id & Client Id in all communication with us.

Let's be part of this "Green Initiative"

For **Escorts Finance Limited**
